

See it's like everything that I've ever seen man, it's just been in a dream man,
It's been in a scene man;

it's been in a place,
Man what's been in a space..?

But its like everything that I've ever said man,
oh well it does't even matter..?
Nope, Just up here climbing up this damn ladder.

Nothing in particular that I'm after..
preservation; not that this earthlight might shatter?

Observations
Justice
confidence

Its just like;
Everything that I've ever written,
man it;'s out here with The Judge,
Out there on a limb

Shits out golden fudge

Man it doesn't even matter,

That's why I'm up here on this ladder
Thats something that I'm after
That empty space
